Applications: Excel, VS Code, Jupyter Notebook, Git, Heroku, MySQL Workbench, Insomnia, Robo 3T.

PROJECTS

Dalila || github.com/lucas1496/Dalila || dalila-app.herokuapp.com
- A music playlist suggestion application that provides users with a Spotify playlist based on their answers to a quiz.
- Created the application's basic front-end layout, implemented website page routing, and developed user authentication functionality with conditional rendering of navigation buttons.
- Developed with HTML/CSS, Bootstrap, JavaScript, Axios, Redux, Mongoose, Spline (for 3D graphics creation), JSON Web Token, bcrypt.js, Node.js, Express.js, and React.js. Hosted on Heroku and uses MongoDB Atlas to store user information.

Pokéfyte || github.com/Dylan-Casanova/PokeFyte-The-Game || pokyfyte.herokuapp.com
- A Pokémon themed web application that allows users to play a simple turn-based fighting game; users can also see simple information about certain Pokémon. Pokémon information and graphics are retrieved using PokéAPI.
- Responsible for the main front-end design and the user authentication functionality of the application.
- Developed with HTML/CSS, Bootstrap, JavaScript, Axios, MySQL, Sequelize, bcrypt.js, Node.js, Express.js, and Handlebars.js. Hosted on Heroku and uses SQL based database structure.

EXPERIENCE

FonYou Mexico – *Product Management Intern;* Mexico City, Mexico June 2019 – July 2019
Cooperated with the product management team of a small company that focuses on the implementation of innovative projects and payment solutions for telecommunications companies.

- Designed a new wireframe for an existing mobile landing page for one of the projects implemented by the company.
- Ran mobile tracking tests that yielded positive results for the development of new consumer behavior tracking practices.

Gemalto, Inc (acquired by Thales Group) – *Region Marketing Intern;* Austin, TX June 2016 – August 2016
Collaborated with Gemalto's North American Region Marketing team to enhance and maximize the promotion of new and existing products and services offered by the world's leading company in digital security & solutions.

- Introduced descriptive product graphics into the company's client-side webpage.
- Developed and consolidated product information into visual aids used in the sales presentation strategy of new solutions and technologies.

Ogilvy & Mather Mexico – *Creative Intern/Assistant Copywriter;* Mexico City, Mexico June 2015 – July 2015
Worked alongside the creative team in the Mexican headquarters of a world-renowned advertising agency.

- Assisted in the development of a creative pitch for a prospective customer's promotional campaign by conducting qualitative data research on trends and fads within the target market.
- Translated and adapted TV ad scripts and print advertisements.
